	(3)	12	16	3	8					v	
	(4)	6	10	14	4					v	
HOME CAPTAIN						HANDICAP>>>>				v	
AWAY CAPTAIN						TOTAL>>>>				v	
PLAY ONE GAME EACH TIME UP TO 21											

PHNs (Personal Handicap Numbers)

Add the four PHNs for each team and divide by four.

Discard any fractions to arrive at a round number.

Consult the **HANDICAP CHART** (Separate sheet)

The team with the HIGHER team handicap will have a start indicated by the Handicap Chart.

EXAMPLE (add all four and divide by four)

Team A = 16. Team B = 21. Difference 5.

The Handicap Chart under Diff of 5 indicates that the start will be 68 to the B TEAM.

Team A (lower team) starts on "0"

Put this Difference in the chart to the right in the box indicated "Difference at Start" showing Plus if the Home Team or Minus if the Away Team.

At the end of each game put the number of points won by under the appropriate team and adjust the overall difference each time.

**NOTE**

**Deuce games (22-20, 23-21, 24-22 etc) are all scored as plus 1 (not 2).**
