

TRIBUTE TO TERRY BOWN -- RIP

By Steve Pratt.

My first memory of Terry was when I played for County Hall in Division 17 in my first season in the League (1978/1979) and came up against him playing at Bevans Holdings with Stu Jones and Ken Amos. I managed to do the double over him and we ended the season as runners up with Bevans ending up 4th.

Both teams were promoted to Division 13 for the 1979/80 season and so we played each other again. This time Terry managed his first and only ever win against me - the reason being that, although I have played in the league for 40+ years, we never played each other again.

We always saw each other at championships and events and I always made the effort to send in entries his quizzes and crosswords. He put a lot of time and effort into setting them and that was greatly appreciated. Memories of Terry turning up on his motorbike (in full leathers) to deliver my prize(s) when I did well enough or my name was drawn out of his hat will always remain with me.

A really nice guy who will be sadly missed.

Steve Pratt
