

DIV	TEAMS	PLAYERS	TOTAL	AVERAGE	HIGH	LOW	DIFF IN	
			GRADING	GRADING	GRADING	GRADING	GRADING	
1	12	51	11598	227	368	135	233	You may or maybe not recall that in the past I was concerned that the league was not being competitive.Division 1 was particularly least competitive compared to the other divisions.I have done numerous spreadsheets covering all divisions for 2025/26 season and have come to the same conclusion that the league is still not competitive.A high percentage of matches, sets and games are being won quite easily (especially in division 1). I personally believe this is down to the number of teams in each division (quantity over equal quality).
2	8	29	4742	164	211	107	104	
3	10	37	4920	133	184	95	89	
4	10	43	4977	116	179	60	119	
5	12	44	3803	86	129	50	79	
1	8	37	8951	242	368	172	196	Rule 14 states that the committee can place teams of up to a max of 12 in division's. Season 2025/26 had 52 teams entered (div 1 12, div 2 8, div 3 10, div 4 10, div 5 12). If it had been 5 divisions of 8 and 1 of 12 I am sure that the league overall would have been more competitive. I have produced the data opposite of graded player's who have played at least 4 matches for both formats of the 52 teams
2	8	29	5136	177	226	107	119	
3	8	29	4897	169	204	95	109	
4	8	32	4139	129	169	94	75	
5	8	33	3749	114	179	60	119	
6	12	44	3803	86	129	50	79	
								In summary MY vision for the league would be -
								1 First 5 divisions with 8 teams plus remaining teams in division 6
								2 Only 1 team relegated from division 1
								Only 1 team promoted from division 2
								All other divisions 2 up 2 down
								3 Doubles to be the best of 3 games to enable earlier finish
								Any feedback positive or negative on the above to
